El Cerrito Centennial Time Capsule

Pat described the call for items to place in the time capsule. Barbara made a motion to put copies of the two histories of El Cerrito books (Staniford and Arcadia Press). Motion was seconded by Rich. The board members then discussed possibilities of other items, but difficult, because of various stipulations - mainly preservation issues and materials allowed, and that items should represent life in the early 21st century. It was though more time would be needed to come up with other suggestions.
